

# Using Calibrations

## How do I play videos in very high resolutions with VIOSO Player?

VIOSO Player support the resolutions of the videofiles up to 4K (3840 x 2160 UHD 4K or 4096 x 2160 DCI 4K).

In order to play very high resolution please consider the usage of other advanced products such as Wings Vioso or Wings RX.

Unique solution ID: #1030
